ON THE WAY TO THE SOUTH.

A Letter From the Edit or, and an Account of What Is Seen by the Way by a Youthful Reporter.

On Thursday November 7th, accompanied by my wife and son, I came to Philadelphia. The fact that it was the lad's first visit to the city has taken me to many places of interest here, some of which I have not visited since my boyhood. During the war I spent two years here at school, and became quite familiar with places of interest of that day. I remember that in 1864 the Roman Catholic Cathedral on 18th street above Race was consecrated, and last Saturday we visited that church, the first time for me in over thirty years. In Logan Square, just opposite the Cathedral, the Sanitary Fair was held in 1864, and there in that year I saw President Lincoln and his military escort.

At that same time Hon. E. Reed Myer was collector of the port of Philadelphia, and his sons were schoolmates of mine, so that the Custom House was a familiar spot to me thirty years ago. On Saturdays we frequently went down to the wharves and went on the steam launch of the customs officers to meet incoming vessels arriving from foreign countries. On one occasion we boarded an Italian ship laden with fruit, and we boys thought it would be fun to go up the main mast to the lookout. It was easy enough to climb the rope ladder going up, but after I got up, the height was so great that I became dizzy and it required the assistance of two sailors to help me down. I never tried that again.

But all this was many years ago, and we must speak of the affairs of to day.

One sees many queer things in traveling. The other day while walking up Broad street my attention was attracted by a notice posted in front of a prominent church. It was printed with brush and ink, and read as follows: Rev.———D. D. pastor, Sunday November 10th, at 10.45 "He descended into Hell"; at 3.15 p. m. "He ascended into Heaven." We leave Philadelphia this Monday morning, and I will not have time to ascertain whether the pastor succeeded in reaching both places on schedule time or not. As the papers of yesterday predicted a sudden fall in the temperature, it is probable that he did.

I went into a barber shop on Saturday to get shaved, and fell into the hands of a loquacious barber. He discoursed about several high toned weddings which had taken place that day, and said that one of the brides had roses pinned in her hair with diamonds. "Dizmonds" said he, "is gittin awful common. Dey is so common that I wont wear em."

And I believed every word he said. He didn't look to me as though he ever would wear diamonds, though when he got through with me, and I paid his bill it struck me that it ought not to be very long before he could afford to buy a few. I find that one of my traveling companions has kept a record, and written out his view of the case. He is nine years old, and spells his name just as I do, and the addition of a Jr. The prospects are that he can soon be added to the force of reporters of THE COLUMBIAN. His account is given below, without correction or addition.

EDWARD EDWELL'S DIARY.

We started on November 7th in the half past eight train to Northumberland and changed cars there for Philadelphia.

We arrived there at three o'clock and were met at the Broad St. station by Mr. and Mrs. William Leverett, the latter of whom escorted us to their boarding place where a room had been engaged for us, at 1822 Arch St.

After resting a little while we went to the celebrated store of John Wanamaker and remained there until supper time, when we came home and enjoyed our evening with conversation. The next morning we went to see Benjamin Franklin's grave, Christ Church where George Washington went to church (it was built in 1695,) Carpenters' Hall, where the first Continental Congress met, and where the famous "first prayer in Congress" was delivered by Parson Duche on the morning that men knew that war was surely coming.

The U. S. Mint where gold, silver, copper, & nickle are coined was next visited.

Then the Old State House where the Constitution of the United States was framed, and where the Declaration of Independence was signed. We saw in it a sofa, chairs, and many other things of George Washington's and one of them was the old pew that he used in Christ Church that I mentioned a little while ago.

There were a great many old relics of the Revolutionary War. I liked the Old State House better than all of them put together. I can't tell one-fiftieth of what I saw in the Old State House. Then in the afternoon we went to the Academy of Natural Science where there were stuffed birds, fishes, and wild animals, shells, minerals, skeletons, and skulls, and many other curious things.

Next we went to the Roman Catholic Cathedral, there were beautiful paintings and statues.

We came home very tired and hot (it was a very warm day). I have forgotten to mention that I saw the house where the first "Stars and Stripes" were made.

On Saturday morning we went to the Zoological Gardens and saw the following. Leopards, Lions, Tigers, Panthers, Buffalo, Elephants, Sealions, Seals, Prairie dogs, Hippopotomus, Wolves, Foxes, Hyenas, black, white, and brown bears, Swans, Monkeys, Snakes, Camels, Elk, Wapiti Kangaroos, Llamas, Zebras, Pelicans, Indian dogs, Cuckoos, Parrots, and other descendants of nearly every living thing that escaped from Noah's Ark.

On Sunday morning we went to St. Clement's Episcopal Church at 9.15 and did not get home until 12.30, as we remained through three services. They have a large vested choir and fine music.

As it rained Sunday afternoon we stayed at home and rested.

I forgot to say that after we left the Zoo on Saturday we went to see Wm. Penn's old house in Fairmount Park. It was built in 1672, and was the first brick house erected in Philadelphia. It stood on Letitia street but in 1883 it was torn down and rebuilt in the Park, where it is kept as a place of interest for visitors.

We leave Philadelphia on Monday morning, and expect to be in Atlanta, Georgia, on Tuesday afternoon.

CRUELTY TO ANIMALS.

Last Saturday morning, Dr, J. R. Evans had a hearing before Guy Jacoby, Esq., charged with cruelty to animals. The information upon which the warrant was issued was furnished by Dennison Brink, who has charge of the horses of John B. Hunt. A large number of witnesses were examined and their testimony was in substance as follows:

Dennison Brink was exercising one of the said horses, and in doing this led it through the alley adjoining the residence of Mr. Evans. It appears that in the said alley and near Third Street there is a grass patch, at which place Mr. Brink stopped and watched the men who were at work on Jefferson Street, on the opposite side of Third Street, and whilst thus engaged it is alleged the horse got on the grass and commenced eating. The doctor appeared about this time and commanded Brink to take the horse away, which he refused to do, claiming that the alley was a public highway, and did not belong to him. They got into an argument over the matter, and the defendant seizing a shingling lath struck the horse on the neck and rump. After hearing the evidence the Justice bound him over to Court in the sum of $200.

AN AGED LADY DEAD.

Miss Rebecca Phillips, who has been suffering for a long time, died at her residence on Market Street last Thursday. She was aged about eighty five years, and was born on the late John Quick farm now owned by James McBride, near Rupert. She has lived at her late residence in company with her sister Betsey, who survives her, for many years. The funeral services were conducted at the St. Paul Episcopal Church, Saturday afterhoon at two o'clock, by Rev. D. N. Kirkby, and the interment was in the Rosemont cemetery.

GONE TO ITALY.

Mr. Pompeo Ratti, who is President of the Bloomsburg Silk Mill Co., started last Thursday for Como, Rogeuo, Italy, where he will remain until next spring. He made the same trip last winter, and returned with renewed strength, and it is hoped that he will receive great benefit from this visit. His voice has been affected for some time, and this journey is made in the expectation of receiving relief. He has our best wishes for a safe and speedy journey.

Butcher Lyons has improved the appearance of his meat market on Main Street by having it painted. He is always up with the procession.

BICYCLE ACCIDENT.

Mr. A. W. Jones, of the firm of Jones and Walter of this place, and George Yetter of Catawissa had a collision on their bicycles near the river bridge at Catawissa last Thursday afternoon. As a result Mr. Yetter was considerably hurt and Jones had a good shaking up, both wheels were wrecks. As we are informed it occurred as follows:

Mr. Jones was going toward Catawissa on his wheel and had descended the hill from the canal bridge toward the river bridge and as he rounded the left hand turn going up the hill into the river bridge, Mr. Yetter came out of the bridge on the same side and came down the hill at a rapid gate, Jones turned to the right toward the middle of the road and Yetter turned in the same direction, to the left. Mr. Jones kept on to the right, thinking Yetter would turn to the left, but for some reason he did not and the two wheelmen collided in the middle of the road. The collision sent both sprawling, but Jones was little hurt, he merely sustaining a few bruises. Yetter was not however, so fortunate, as Mr. Jones found when he picked himself up that Yetter was lying in the road, where he had fallen, unconscious. Mr. Jones tried to get the injured man up, and while thus engaged, two boys who had been fishing in the canal nearby, came up and together they worked with Vetter, but he did not become conscious; the boys then secured a wagon which was passing near the scene, and with the assistance of the driver of the wagon, the boys took the injured man to his home in Catawissa Mr. Jones, whose wheel was badly broken, walked home.

In an article one of the town papers in commenting upon the accident say, that after the collision, the party who collided with Yetter gathered up his wheel and started for home paying no attention to Yetter. It will be noticed by reading the above that such was not the case, but Mr. Jones staid until he was placed on the wagon and sent home. Not only this, but he went to Catawissa the next day to see how he was getting along, surely this does not manifest the spirit the article above referred to, would have its readers believe actuated Mr. Jones. It was an accident pure and simple, and no one regrets it more, than he does.

FIRE AT BENTON.

Benton Milling Companys Large Mill Destroyed. Other Buildings on Fire, Providential Intervention of Rains.

Last Saturday night, about 8 o'clock the alarm of fire was heard when it was discovered that the Benton Milling Company's Mills were on fire. The conflagation was great and this structure was speedily reduced to ashes. A shower of burning embers from the burning building was falling all over Town and but for the rain, not a vestige of the beautiful town would have been left. Seeley and Penington's store was twice on fire. Sheriff McHenry's stable was on fire, also several other buildings. The heat broke many window lights in adjacent buildings. The excitement was intense. On Sunday morning, after the excitement and fright subsided, the good people of town could doubley appreciate their beautiful and comfortable homes. Some had already moved valuables to places of safety while others were making preparations for removals. The rain was a providential intervention in the salvation of the town. All was hurry and bustle, and from appearance the bucket brigade did an effective work. The loss is a calamity not only to the proprietors and town, but to the community at large.

The origin of the fire is unknown, but the common accepted theory however is, that it was caused by a hot box. The loss was $20,000, with $10,000 insurance.

FIENDISH PLOT.

An Attempt Is Made to Blow Up a Church At Tunkhannock.

During gospel services at the Bardwell Evangelical Church at Tunkhannock Wednesday night of last week an attempt was made to blow up the church and congregation with dynamite. There was a crash, the lights went out, the windows shook, the plaster came down on the preacher, pulpit and congregation, the women screamed and fainted. When order was restored it was found that an attempt had been made to wreck the church by the use of dynamite placed under one corner of the edifice.

The motive is ascribed to the bitter warfare growing out of the transfer of the church property from the Dubsite to the Bowman-Esher people.

The Vanity of Wealth.

A symposium composed of the opinions of nine millionaires of the country on the question whether wealth brings happiness is published in the New York World, and gives the answer unanimously in the negative. Russell Sage, Andrew Carnegie, John D. Rockefeller, George M. Pullman, J. W. Mackay, Russell Alger, Gov. Morton, Jay Cooke and Austin Corbin all agree that the rich man is more oppressed by the cares of his possessions than made happy by the pleasures he can buy. Mr. Carnegie is the one man of the nine who is able to construct a theory that accords with his practice; for while he regards his wealth as the measure of industrial achievement he declares that it is only by using the accumulations of his fortune for the benefit of others that the rich man can get any pleasure out of them for himself. Yet the other eight, who tell piteous stories of the care, worry and annoyance of the rich man, will continue to pursue wealth to the end of their lives—some of them by means which, if the result were to secure single dollars instead of hundreds of thousands, would be called by very uncomplimentary Anglo-Saxon terms. The sincerity of their opinion can be tried by the single and unerring test, that, if they wish to get rid of their unhappiness, they can very easily make over their wealth to public purposes. They recognize the emptiness of wealth in theory, but in practice, like too large a share of the world, they make it the summum bonum at which all existence is aimed. But we must credit all the millionaire contemners of riches with at least a theoretic recognition of the truth. It is undoubtedly the fact that pursuit of wealth, simply for wealth's sake, is one of the most sordid and empty vanities of the life which, we are assured by the preacher, is all vanity.

An Additional Virtue.

Each day adds some new virtues to the long list of those already credited to the pneumatic. The latest of these is that the wheels of a bicycle being encircled by a band of India rubber and dry air—which is a perfect insulator—the rider is completely insulated from the earth and consequently impervious to the attacks of the electric fluid. Thus, day by day it becomes more and more a fact that life without a pneumatic tire is neither safe nor worth having. Anyone who suffers from nervousness during a thunder shower has now only to go into a barn or the cellar and seat himself upon the saddle of a pneumatic-tired bicycle to be perfectly safe from lightning stroke. As the chances of a man on a bicycle being struck by lightning have been carefully calculated to be about one in a billion, the Wheel adds there will, of course, be some pessimists who will deny that this newly-discovered virtue of the pneumatic as a lightning insulator amounts to very much.

It is a ridiculous commentary on the movement of the bicycle bloomers to reflect that skirts are worn by all who swim, while so many who ride wheels provided with skirt guards insist that they must wear bloomers. Plenty of women bicyclers who do not wear bloomers at these beaches declare that they would wear them if they could be certain that they would not have to get off their wheels. They do not want to be seen on foot in trousers. The sight of those women who walk and lounge about in bloomers, off their wheels, does more to prevent the general adoption of bloomers for bicycle riding than anything else. And here is another grain for reflection—the nicer the place the fewer the bloomers.

The Philadelphia Inquirer makes a good point when it says: In these days of fads in woman's dress and the praise which is being lavished upon them, it is pleasant to have to record a real and an honorable victory for the plain, old-fashioned skirt. It was only a few days ago that a young woman, who was walking along a railroad, saw that obstructions had lodged on the tracks from a burning freight house adjoining. She knew that a passenger train was almost due, and so she went a little way ahead, took off her skirt and flagged the train. Now what could she have done if she had been a new woman clad in bloomers?

In many country places there are bicycle newsdealers who ride from house to house delivering the papers. Where the routes are long and the deliveries few, the buyers of the papers have to pay a good price for them. The bicycle is entering very largely into all the avenues of commerce and its utility in business life is becoming more apparent each year.

There is an old colored woman in Madison, Ga., who is so devoted to her kinfolk that she named her only daughter after them all. Here is the name: Matilda Ann Elizabeth Polly Dolly Adline Catherine Alemontine Martin Boubieroe Kilpeperson Peacock Jimpather Varilla Jane Indiana Francis Betsy Meedom Freedom Mary Middlebrooks Williams. Her nickname is Sis.

A jury composed of one-half women and one-half men is to decide the suit of a man against a woman in Lancaster, Ky., for breach of promise of marriage. That settles the case for the woman and no mistake. And when that jury retires to deliberate the chances are it will be a mixed jury with a vengeance.

A FATAL SWIM.

Thomas Venemon, aged 22 and unmarried, a resident of Jersey Shore, was drowned in the river at Linden shortly after 11 o'clock last Thursday.

James Slaughenwhite, Harry Traveller and Thomas Venemon, all of whom claim Jersey Shore as their home, but who tramp about the country a good deal, rode from Lock Haven to Nisbet on a Pennsylvania freight.

When the trio alighted at Nisbet at 11 o'clock they caught sight of the dinner pails of the section men, who were there at work under Foreman Phillip McDermott.

The three travelers picked up the dinner pails, evidently intending to partake of a lunch, but the section men discovered their loss and started in pursuit.

The pursued took to the river bank, and, jumping into the stream, began swimming toward the opposite shore. Slaughenwhite and Traveller reached the other side in safety, but when within forty feet of the Linden shore, Venemon either gave out or was attacked with cramps and sank to the bottom.

The body was recovered, and Coroner Goehrig summoned. He arrived at Linden in the afternoon and at once proceeded to hold an inquest. The three men all have relatives in Jersey Shore, and live there when at home. They are all of about the same age.

The *Dushore Review* is responsible for the following:

A story is told of a couple in some down country town—presumably Bloomsburg or Hughesville—who had trying times in naming their children, the first being twin girls. It was decided the father must name them. After casting about and finding no names that exactly suited him, he determined to end the strain on his mind and named them Kate and Duplicate. In the course of time another pair of twins came and they were boys. This was the husband's turn to get even and he wanted his wife to christen the boys. She called them Pete and Repeat and the husband's heart sank within him. When the third pair came he called a halt and named them Max and Climax

A retraction is in order, so far as the above relates to Bloomsbnrg. Our married people never have a misunderstanding over a little thing like that, and never call a halt on such a trivial matter.

Where Postage Stamps are Made.

As you lick a postage stamp preparatory to placing it on your envelope, do you ever think that the paper stamp was manufactured at Lock Haven, Pa.? A writer in the *Grit* says, "Uncle Sam has long since recognized the fine product of the Lock Haven paper mill, and as a consequence buys his postage stamp paper in car load lots." We gave Uncle Sam credit with being a good judge of paper from the long experience he has had, but we can't agree with him when he says the Lock Haven paper in the postage stamps is good. It is a very poor quality of paper indeed. So poor that the paper will tear before the perforating gives way. The article continues: "The paper is manufactured into sheets several feet square, with the letters 'U. S. P. S.' water marked all through the sheet, so that when they are perforated each stamp will have one of these watered letters on it, which is invisible after the sheets are gummed, except to the expert eye of the Government officials, who can by this distinguishing mark very readily detect counterfeit stamps. The utmost care must be exercised in boxing and shipping the paper, and should the least abrasion be made in nailing or otherwise the officials at Washington will condemn it."

Bicycle Profits.

In Indianapolis, a boy who worked in a bicycle factory was charged with stealing from time to time, pieces, until he had all the parts of a bicycle, from which he built a wheel for his own use. He was arrested by the proprietors of the establishment on the charge of grand larceny. To sustain that charge in Indiana it must be proven that the property was of the value of twenty dollars. The lawyers who defended the boy showed by the evidence of the manufacturers themselves that it cost but $15 to put upon the market an $80 bicycle.

Shrinkage of Products.

Wheat, from the time it is threshed says an exchange, will shrink two quarts to a bushel, or six per cent. in six months. One hundred bushels of corn husked in November will shrink to eighty in March. Potatoes will not shrink thirty-three per cent. of value from October to June.

It is estimated that there are enrolled in the public schools of Pennsylvania this season 1,075,000 pupils.

NINE ON ONE BICYCLE.

When the tandem was built a number of years ago, it was looked upon as a remarkable development of the bicycle, and the two riders skimming along over the road attracted almost as much attention as a small circus parade. The triplet, with seats for three riders, but only two wheels, next made its appearance and astonished the bycling world by its speed. Both the tandem and the triplet were used for pacing riders in contests against time, and some expert finally suggested that a quadruplet or a two wheeled machine for four sturdy cyclists would set a faster pace than had ever been seen on the track.

Many persons did not believe the frame could be made strong enough to support four heavy wheelmen, but the machine was constructed and proved a great success as a pacemaking device. It made its mile on a straightaway course in 1 minute 35 seconds, a better performance by half a second than Salvator's world famous mile on the straight track at Monmouth Park, New Jersey, August 28th 1890.

It was now quite generally believed that the "quad" was the longest bicycle that could be built and operated successfully, but P. J. Berlo very recently demonstrated that the opinion was not well founded. He constructed a quintuplet which carried five riders, but had only the usual number of wheels. It proved a valuable addition to the pacemaking apparatus, and encouraged by its success a California inventor is building what he calls a nonaplet, which he expects will carry nine men and display unprecedented speed on a straightaway course. The inventor's name is Albert Thompson, and he is a resident of San Francisco.

This machine will be a world beater, says The Wheel. Nothing can pace it, and even the lightning must hustle or be distanced. The phenomenon will have two 30 inch wheels, will weigh 180 pounds, and its gear will be 225. Think of the speed a gear of 225 will make when a 90 gear rolls a mile in 1 minute 35 seconds, or about 45½ feet per second! What will be the pace of the "nonaplet" with nine crackerjacks whirling the big rear sprocket almost four times the diameter of that on the ordinary wheel? They won't do anything to that 1 minute 35 second record!

TO CHECK FOREST FIRES.

Circulars Sent Out to Conty Commissioners Urging Them to Aid in Preventing Such Destruction.

Dr. J. T. Rothrock, of the Forestry Commission is now engaged fighting the question of forest fires. He is sending out three sets of circulars, one to farmers and lumbermen, one to County Commissioners and the last to farmers. Forest fires are now raging in the following counties to a greater or less extent: Mifflin, Huntingdon, Centre, Cumberland, York, Chester and Lycoming. One thousand acres were burned last week on the Welsh Mountain.

Dr. Rothrock says: "Every fire can be traced to one of three causes—maliciousness, carelessness or ignorance. In the first case men very infrequently set fire to their forest property when they have gotten behind on taxes and the land is taken from them. In revenge they set fire to the timber. Hunters often set fire to the forests through very carelessness, and boys start bonfires often through utter ignorance of the damage which may ensue.

"Yet none of these reasons should be legitimate excuses in the eyes of the law. The State alone loses $1,000,000 annually through forest fires, and no one at all in Pennsylvania, so far as my knowledge extends, is now under punishment for the offense."

Dr. Rothrock will leave for the scenes of the fires as soon as possible, and he will investigate as thoroughly as may be the origin and extent of the fires.

The Right Thing at Last.

Ex Governor Roberts, of Texas, is a queer character. Recently he was called upon to deliver an address to the inmates of the State penitentiary. The Governor consented, and after reviewing his audience a few minutes, began:

"Gentlemen——"

"But no," he hesitated, "you,re not gentlemen or you would not be here."

"Fellow citizens, then——"

He stopped again.

"No, you're not citizens, either."

The Governor grew impatient for want of something to say.

"Well," he began again, "it doesn't matter what you are. I'm glad to see so many of you here."—*New York Journal.*

Durrant Found Guilty.

The Jury in the Durrant murder case went out at 3.25 P. M. last Friday, took one ballot and found the medical student guilty of murder in the first degree. The facts in the case were as follows:

On the 3d of April last Blanche Lamont left her home at 8:30 A. M., and went to the Boys' High School for the morning session. In the afternoon she attended the Normal School, in Powell street, near Clay, for the cooking class, which she left about 3 P. M. As she walked from the school in company with Miss Minnie Edwards, a young man stepped up to her, raised his hat and escorted her to the car at Clay and Powell streets. The two sat on the east side of the dummy, and rode in that position to Market street.

En route to Market street Miss Edwards sat inside of the car, and paid close attention to Miss Lamont and her escort. She saw them last at Market and Powell, where she left the car, and proceeded down Market to Fourth street. As the car on which Miss Lamont and Miss Edwards rode passed the corner of Powell and California, Misses May Lanigan and Alice Pleasant, who attended the Normal School and saw Miss Lamont there that day, noticed the young lady and her escort sitting on the outside of the car.

NEVER AGAIN SEEN ALIVE.

Blanche Lamont was never again seen alive by any one who knew her. She failed to return home, and her disappearance was reported to the police. They not only failed to find her, but were unable to get a clew which would show whether she had been murdered or had eloped. The latter was the most accepted theory. It became known that a young man had escorted the missing girl from the school, but his identity was not established at that time.

On the 13th of April the mangled body of Minnie Williams, who had been murdered on the night of Friday, the 12th, was found in the library of the Emmanuel Church. This discovery led to an investigation and the finding of the remains of Blanche Lamont on the top floor of the tower of the church.

FINGER MARKS ON HER NECK.

She had been strangled to death, and the marks of the murderer's fingers were plainly to be seen on the neck. It was evident that the murder had not occurred where the body was found, but that the body had been carried, or rather dragged, to that spot by the murderer from some point outside of the tower. There was a large blood stain at the second floor of the tower and other bloodstains below which showed that there the murderer had rested and permitted the body to lay.

The body had then been taken to the top floor, denuded and laid out with blocks of wood at the head and under the feet, something after the method in vogue in a dissecting room. The clothing had been torn to pieces and stuffed into interstices in the walls of the tower. The school books which the murdered girl had carried had been disposed of by being thrown into dark recesses above the ceiling of the church on a level with the lower floor of the tower.

ATTEMPTS AT CONCEALMENT.

The murderer, probably upon the day of the crime, had broken the outside knob off the door of the tower leading to the gallery and had broken the lock. This was done from the inside, and necessitated his departure from the scene of the crime by going through an aperture communicating with the space above the church ceiling and thence crossing over the top of the ceiling to the rear of the church whence there was a passageway down to the auditorium floor, and from there to the floor below, on which the Sunday School room and the library room were located.

When the murder of Minnie Williams became known suspicion was directed toward Theodore Durrant, and detectives found enough evidence in his clothing to justify his arrest on Sunday morning, April 14. Durrant was then at Mount Diablo. He was brought back to this city and an effort was made to fix the murder of Blanche Lamont on him.

The two school girls positively identified him as the man they had seen leave the Normal School with Miss Lamont on the afternoon of April 3.

An attempt was made by the defense at the trial to arouse suspicion against the pastor of the church, Rev. Mr. Gibson, but it proved a weak invention and was abandoned.

Next year, 1896, will be leap year. The girls will do well to make the most of the opportunity, for it will be eight years before another comes. The year 1900 will not be a leap year. The year is 366 days six hours long, less eleven minutes. The eleven minutes amount to one day in 100 years, when leap year is dispensed with. The year 1900 will therefore not be a leap year.

Metallic Furniture Agents Alleged to Have Combined to Cheat the Commonwealth.

John Hine, representative of the New York firm which furnished the metallic furniture this summer to the departments on Capitol hill, Harrisburg was held in $500 bail last evening by Alderman Kinneard on a charge of conspiracy. Evidence showing that $6,000 had been divided among the agents of several metallic furniture companies in the interest of the successful bidder was adduced and that the state had paid about $30,000 for metallic cases which could have been furnished at a reasonable profit for $20,000.

H. N. Booz, of Philadelphia, agent for a metallic furniture company, who was refused a contract by the board of public buildings and grounds last June because his bond was defective, is the prosecutor. The case has excited much interest among the state officials.

The Downfall of Bill Nye.

Bill Nye, the humorist, had an experience at Peterson, N. Y., last week that he will hardly write up for the Sunday papers. Nye and his lecturing companion, Poole, the lightning characturist, were engaged to give an entertainment in the First Baptist Church, for which they were to receive $250. The church was crowded with the best people in Peterson when Nye and Poole appeared. Poole came on first and gave great satisfaction, but when Nye came on he was so drunk that he could scarcely talk. His behavior and language were so disgusting that many of the audience left at once. After the entertainment was over a number of young men who had been "faked" armed themselves with decayed eggs and fruit and laid for the humorist at the railroad station and "soaked," him well. He was a miserable object when he finally got into his car, and the other occupants of the car cleared out and left him alone in his glory. He was besmeared from head to foot with spoiled eggs, but immediately sunk into a drunken stupor and slept till he reached New York. Mr Poole has announced that he will cancel all engagements with Nye. Nye cut up the same sort of a caper at Atlantic City a few nights before.

The "*Sullivan Review*" publishes the following article in reference to the recent Judicial contest in that district.

Since the adjournment of the contest court the way in which certain prominent citizens voted last fall has been openly proclaimed, and it is said that the ballots of men whose votes were not challenged were opened up during the final court, their vote ascertained and commented upon. Just how much of this is true we are in no position to know, but we do know that the first part of the above statement is correct. The secrecy of the ballot is jealously guarded by the law, and if the learned exponents of the law allowed this secrecy to be violated they are unworthy the positions they hold. If persons connected with the court as attorneys or officers, after coming into the possession of the secret of the ballot, so far forget themselves as to reveal the secret to the world they are unworthy the future confidence of the court. An offense against decency has been committed, or some one is doing considerable lying. Are the parties who committed the offense above punishment by the law for their misdemeanor? This thing should be investigated and some one brought to justice, even if it reaches within the sacred? precincts of the bar of justice.

Judge Mitchell's Decision

A Justice of the Peace can not act as agent or attorney for one of the parties and afterward sit in judgment over both in the same case. To do so is to become guilty of a highly aggravated misdemeanor indictable at common law. So says Judge Mitchell of Tioga county, in an opinion recently handed down in a case brought before him from Lawrenceville in which the justice wrote the defendant two letters, the first informing him that he held the claim for collection, the second saying to him that he was instructed to bring suit unless the balance of the claim was paid at once.

Lost a Hand.

George Houghton, who was sentenced to the Huntingdon Reformatory by Judge Ikeler some time ago, upon conviction of stealing money of Jere Brobst of Catawissa had his right hand taken off at the wrist one day last week. He was engaged in running some planing machinery and carelessly attempted to remove some shavings from the knives with his hand, contrary to instructions, with the above result.

MERITED REWARD.

SALES OF LYDIA E. PINKHAM'S VEGETABLE COMPOUND.

Unequalled in the History of Medicine. Honesty, Excellence, Faithfulness Fitly Rewarded.

(SPECIAL TO OUR LADY READERS.)

Never in the history of medicine has the demand for one particular remedy for female diseases equalled that attained by *Lydia E. Pinkhams* Vegetable Compound and never in the history of Mrs. Pinkhams wonderful Compound has the demand for it been so great as it is today. From Maine to California, from the Gulf to the St. Lawrence, come the glad tidings of woman's suffering relieved by it; and thousands upon thousands of letters are pouring in from grateful women, saying that it WILL and *does* positively cure those painful

Ailments of Women.

It will cure the worst forms of female complaints, all ovarian troubles, inflammation and ulceration, falling and displacements of the womb, and consequent spinal weakness, and is peculiarly adapted to the change of life.

Every time it will cure

Backache.

It has cured more cases of leucorrhœa by removing the cause, than any remedy the world has ever known; it is almost infallible in such cases. It dissolves and expels tumors from the uterus in an early stage of development, and checks any tendency to cancerous humors.

Lydia E. Pinkham's Liver Pills work in unison with the Compound, and are a sure cure for constipation and sick-headache. Mrs. Pinkham's Sanative Wash is frequently found of great value for local application. Correspondence is freely solicited by the Lydia E. Pinkham Medicine Co., Lynn, Mass., and the strictest confidence assured. All druggists sell the Pinkham's remedies. The Vegetable Compound in three forms, — Liquid, Pills, and Lozenges.

Democratic Negro Honored.

James C. Matthews, colored, formerly recorder of deeds at Washington, D. C., under President Cleveland's first administration, has been elected judge of the recorder's court of Albany, New York, which office carries with it powers of a supreme court judge. His majority is over 2,000. He was nominated and elected on the regular Democratic ticket. It is the highest judicial office ever held by a man of his race in this country.

A Great Offer.

The "Twice-a-Week" edition of the New York *World* (formerly the Weekly) has proved a phenomenal success. It is a Semi-Weekly of six pages, mailed Tuesdays and Fridays; eight columns to the page; forty-eight columns each issue. It gives the news fully half a week ahead of any weekly paper, and, at the same time, retains all the literary, agricultural, miscellany and other features which made the Weekly *World* so popular. Yet the price is only $1.00 a year. For sample copies address THE WORLD, N. Y.

Arrangements have been made by which we can furnish this paper and the Twice-a-Week New York *World* all for $1.75 a year. Take advantage of this offer and get your own local paper and the Twice-a-Week *World* at this special rate. tf.

LETTERS OF ADMINISTRATION.

The following letters of administration and testimentary have been issued by Recorder Ent during last week.

In the estate of Jeremiah Hess, late of Bloomsburg, to George W. and J. A. Hess.

In the estate of George W. Supplee late of the same place, to H. G. Supplee, and Albert Girton.

Losses From Field Fires.

Woods fires created considerable havoc between Danville and Catawissa for some time past. Paul Shultz, son of James Shultz, of this city, who occupies one of his father's tarms, lost a whole field of corn and fodder, which was burned in the shock, also 150 rods of fencing and nearly all his timber. The fire started from a spark thrown from the engine at Woodruff and Nelson's saw mill. The fire was soon a conflagration that spread with race horse speed, approaching within five rods of the farm buildings. For a while it seemed that the house and barn were doomed. A crowd of some sixty persons had gathered to assist fighting back the flames. By night fire was under control.

An Optical Illusion Explained.

The Richmond *Recorder* says: "It is curious how much faster a street car humps along when you are running after it than when you are riding on it." It is also curious how much faster the "Atlanta Special" actually moves than it appears to one riding on it, to do; but the explanation is plain—the Seaboard Air Line roadbed is so perfect that trains move over it at a speed of 60 miles an hour without jolt or jar. The "Atlanta Special" is the Seaboard Air Line's Vestibuled Limited Train, operated solid between Washington, D. C. and Atlanta, Ga., via Fredericksburg, Richmond, and Petersburg, Va., and Raleigh, N. C.

Important Civil Service Order.

President Cleveland, last Friday, signed the most important civil service reform order he has ever made, under which all postoffices which are not near enough to a free delivery office can be brought within the classified service, and which, in its practical operation will enable the postmaster general to divide the country into large postal districts, so that the postmaster at the metropolitan centre will be the only official, high or low, in the postoffices of the district who will be outside of the civil service law bringing seventy-five per cent. of all offices of all classes in the classified service.

The order will work a revolution in the postal service, but Postmaster General Wilson proposes to apply it gradually and cautiously.

Tapped the Susquehanna.

The Ravine Mine of the Newton Coal Mining Company at Pittston is in danger of being flooded by an accident that occured last week. One of the miners, while at work, fired a blast with the object of taking down top coal. The concussion opened a seam in the roof that caused a stream of water, sufficient to fill an eight inch pipe, to pour in with great force.

After waiting for some time in hope of it stopping, the engineers were sent for. After a thorough investigation they discovered that the leak came from the Susquehanna river, and as yet have not been able to devise plans to stay the inpouring stream. Three large pumps have been put to work, and it is only with the greatest difficulty the mine is kept from filling up.

The mine is one of the most productive of its kind in this valley, and is owned principally by George B. Newton and Frank T. Patterson, of Philadelphia.

He Sleeps Incessantly.

Amos James Manning, of Mt. Carmel, is a wonder to the medical profession. He is afflicted with a malady that causes him to sleep twenty three and a half hours per day for weeks and even months at a time. Nothing appears to help him in the least, and doctors have given up all hope of getting him out of that condition. Manning is thirty one years of age. Eleven years ago he was afflicted with an unnatural disease. He would go to bed and remain there for a week at a time, being awake but an hour or so a day, and eating but one meal. Then again for months he would be all right and worked steadily.

The disease grew upon Manning and it finally got so that the sleeping spells lasted for three and even four weeks. This state of affairs continued until about a month and a half ago when he took to his bed, and remained there until Wednesday evening. During that time he was awake long enough to swallow a little food and then he would sink back into a dreamless death like slumber. Manning resides with his mother, who has been a widow for nineteen years, but who says she is unable to support him longer and he will have to be taken some where else.

Ashland borough council has decided to enlarge the storage reservoir to twice its present capacity.

JONAS LONG'S SONS' WEEKLY CHATS.

WILKES-BARRE, PA.,
November 13, 1895.

Every day there is something worthy of special notice in our great aggregation of wearables and finery. We know if you were here you would be interested in our doings. Just now we are fitting up a space on our Fourth Floor, covering almost 15,000 feet, to be used solely as a Toy and Holiday Bazar. Wouldn't think there were so many children to buy toys for. Drop in on us any time from to-morrow until Christmas and watch how we dispose of these great piles of Toys, Dolls, Musical Instruments, everything and anything to make a child's life happy once in the year at least.

Then our Dress Goods department is never behind in its offerings. This week we surprise you all by naming a price on Dress Fabrics that is simply 50 per cent. below what we should get for them.

Double Width Dress Goods in all the newest weaves. Mohair Fancies of every possible coloring. Boucles, Cheviots, Homespuns and changeable effects, anyone of them this week to go at 33 cents the yard. Write for samples.

Our Blanket stock is active at present. Wise ones are getting ready for the cold snap. None too early to buy now. Here's our celebrated Alverado Grey Wool Blankets, 10x4 size, weighs full 4 pounds, serviceable and comfortable, and the price, $2.50, is certainly reasonable enough.

Our favorite California Blanket, made of fine selected stock, fleecy and soft to the touch, bound with silk and borders of delicate blue and pink and cardinal. You could hardly buy the wool for the price. 10x4 size $3.75.

Baby Crib Blankets, silkbound, pink and blue borders will be offered this week at $1.12.

Our Boys' Clothing Man is proud of a new suit he received this week; says it would be extra value at $5.00. It is handsomely made of the finest Thibet cloth, with extra large reefer collar, sleeves and collar trimmed with broad silk braid, trimming sizes 4 to 8. We took a big lot of them and can sell them at $3.48.

Do you know it isn't every place where you can get just what you want in Wools and Yarns. We keep most everything in these lines; there is a big demand now for them to make up for Xmas. We have all shades of Knitting, Filo Crochet Silks, Rope Silk, Wash Twists, Etching Silks and Embroidery Silks. We sell Spanish Wool 13c. the skein or $1.00 per pound; Saxony 8c. skein or $1.20 the pound; German 22c. skein or 80 cents the pound; Germantown 14 cents the skein or $1.00 the pound.

All Wool Under Skirt Materials in all colors, stripes or plain grounds, goods thoroughly shrunk and warranted every way. Send for a pattern all ready to make up. We are offering them at a very low price—98c.

We are sole agents for the genuine Foster Kid Gloves. Some dealers sell you something else and tell you it is the genuine Foster lacing hook. See the point? In the genuine Foster glove you will find in a circle one of these names: William, that sells for $1.00, Fowler sells for $1.35 and Fosterina, that sells for $1.98. Don't take those without these names; they are not the genuine Foster kid glove.

Respectfully,

Jonas Long's Sons

Wilkes-Barre.

Politics will now take a back seat for a year.

E. A. Rawlings has improved the appearance of his meat market on Centre Street by having large glass placed in the front door. Now he can close the door and it will not look as though he had gone out of business.

Thomas Vanatta, and William Bodine succeeded in killing a large gray fox on the river hill opposite Espy last Saturday. If there are any foxes in the county they can find them.

W. B. Taylor, in stepping from the porch at his bottling establishment last Monday evening, sprained his ankle. He is confined to the house as a consequence.

The fence has been removed from Mrs. M. E. Creasy's residence on on Main and Jefferson Streets. This became necessary on account of the opening of the latter street.

President O. F. Williams of "Woods College" Scranton, is known to every business college of America.

For many years he taught, lectured and wrote college text-books in Rochester, N. Y.—his books being used in about a thousand business colleges.

Then he was sent by President Harrison to France as U. S. Consul—now he assumes the presidency and ownership of "Wood's College" Scranton, and day and evening with his large corps of teachers gives instruction He has tanght ten thousand students at Rochester, and scores of business college teachers have been his pupils.

Call and investigate—or send for College Journal.

ALLEGED CRUELTY.

For some time past complaint has been made that Rantz Dehart and his wife have been neglecting their two small children (both really babies) and the rumors assumed such a character that President of Town Council Creasy felt called upon to take some action in the matter. Last Thursday morning they were both in town, with the children and were arrested and brought before Guy Jacoby Esq., who after hearing the evidence committed them to the care of the Sheriff. From the evidence it appeared that the neglect consisted not so much in the want of providing sufficient food, as it did in real neglect of them caused by the intemperate habits of both parents. That they would both become intoxicated and drag the children through the streets at all times of night. Upon one occasion, one of the children was found in the creek bridge, evidently having fallen from the buggy, and the parents had gone home never missing it. On another occasion, one was taken into the house of Mr. Barton and cared for.

A writ of habeas corpus was issued and they were taken before Judge Ikeler who after giving them some wholesome advice, notified Chief of Police Knorr to give written notice to the overseers of the Poor of Bloom and Montour Poor Districts to keep a diligent watch, and at the first intimation of the want of proper care of the children, to advise the Court, and he would cause them to be brought before him and deal with them according to law.

It is to be hoped that this will be the last of the matter and that they will give their children proper care and treatment.

Glance Over These Perfectly Assorted Stocks.

We have prepared with just those stylish and worthy goods that you are always accustomed to get here. We don't know of a want in the general line of dry goods, queensware, boots, shoes, or groceries that would not be filled here, and if it is something out of the ordinary we will be glad to get it. Try us for that new dress, or cloak, or a pair of blankets.

News from our Cloak Room.

A hundred or more garments are here for your inspection. Perfectly and stylishly made, just the correct thing, and prices in reach of all. There are some reasons why we can save you money in cloaks. First, we bought them at rock bottom prices. Second, the styles and fabrics are the latest; third, there has been a general clipping from the price. Are you curious enough to come?

READY MADE WRAPPERS.

Both print and flannel, and just as stylishly and honestly made as though you did the work. Figure the cost of of material, findings and sewings, and you can see why these prices are money savers. Prints, half lined, at $1.00. Flannel, half lined, at $1.75, and many others at different prices.

HOSIERY HINTS.

In women's wool hose we have a dozen qualities that are nothing but pure wool. In children's hose we have a lare quantity in all wool, part wool, and cotton. Some extra strong stockings for boys. In men's hose we have a dozen grades in cotton, wool, also part wool. We have everything that is good, that you are likely to want. We exercised particular care to get good qualities, as stockings can be good although costing but 25c. It is worth while coming here.

CHAMBER SUITS.

Never more plentiful, more neatly decorated, or less costly than now. Anywhere from $2.50 up to $10.00. These latter are china and can't be duplicated at twice the money. Rare bargains. Can't we sell you one?

GROCERIES.

These necessities of life ought to interest you. Some thing new. Eclipse raisins. Larger raisins seeded. Not expensive either. Aunt Maria's Pancake flour. Pancakes in the morning in a minute. Try one package and you will always use it. Fruit cake—like it? Good as home made and less expensive, 25c. lb. Home made apple and peach butter. Ask to taste it when here. Fleishman's yeast, finest made.

WASHINGTON.

From our Regular Correspondent.

WASHINGTON, Nov. 8th, 1895.

Political defeat is a part and portion of the history of every political party and amounts to little when the members of the defeated party have the sense and the courage to profit by the lesson which can always be learned from defeat. The lesson of the defeat by which the democratic party last week lost the states of New York, New Jersey, Maryland and Kentucky, which are naturally democratic, and allowed the republicans to pile up abnormal off year majorites in other states, is so plain that he who runs may read it, and he can run a great deal faster than some of the democratic candidates did in the states named, too. If the rank and file of the party displays the sense and courage to profit by this lesson, the democratic party has still a good fighting chance to elect the President and a majority of the House next year—there is no chance to regain control of the Senate before 1899 or later; if not, its chance for doing either may be considered infinitesimal.

Everybody knows the cause of the democratic defeat last week, as well as that at last year's Congressional elections. It is because there are not enough democrats to win when they are divided into administration and anti administration democrats. In 1892, when the party was united it won a great victory, capturing at one time the Presidency and the control of both branches of Congress. Barring the control of the Senate that victory can be duplicated in 1896, provided that the Cleveland democrats and the anti Cleveland democrats can be made to become just plain democrats, and to stop cutting each others throats. A good start might be made in that direction by those—this is no time for crimination and recrimination; therefore no names need be called—who excused their opposition, both open and secret, to the regular democratic nominees in several states on the ground that it was an off year and defeat would have no effect upon the Presidential contest. Let them come out like men and say whether they are democrats from principle, or only democrats when they can name the parties nominees, and having declared themselves let them live up to their declarations.

In this same connection there is also a duty devolving upon the men who manipulated the party machine. A little consideration will convince them that they are not blameless. Had they been less arrogant in displaying their power to force objectionable nominations, in some instances for no better reason than a desire to force objecting democrats to eat a dish of crow by voting and working for those nominees, the party would have made a better showing. Let these men forget the injury done and endeavor to conciliate the kicking democrats and to get the party united once more.

One of the principal reasons why a united democracy will stand an excellent chance of winning next year is found in the present condition of the republican party, which regards its winning next year as such a certainty that its members have already begun to fight for the control of the spoils of victory, and by the time they succeed in nominating a Presidential ticket they are likely to be hopelessly split up into fighting factions. If the democratic party remains as it now is it will be in no condition to take advantage of such a state of affairs. It is only a question of whether democrats prefer following up personal grudges and "getting even" with democrats against whom they are held and losing, to subordinating their personal feelings for the success of the party and winning.

Hon. Lawrence Gardner, Secretary of the Democratic National Committee, speaking of the elections said: "I do not think that our defeat means that we have no hope for '96. It was not against the principles of democracy that the people voted," and ex Representative Coombs, of N. Y. gave an explanation of the result in his state after saying that he had none to give, by adding: "But we must get together in New York. The way the democracy is divided there is astonishing."

President Cleveland and all the members of his Cabinet are setting a good example for other democrats by declining to express for publication their opinions of the party's defeat. This is all the more creditable to them because they could, if so disposed, truthfully call attention to the fact that the most crushing defeats have occurred in the states in which the campaigns were personally managed by anti-administration democratic Senators. President Cleveland, as well as the members of his Cabinet, have some decided opinions on this subject is certain, but it is fortunate for the party that they have the good judgment to keep them to themselves at this time, when the rank and file of the party, who are neither responsible for nor have taken any part in the bickerings, are smarting under a defeat which they believe to be undeserved. It is a matter that should only be discussed in private.

OLD, BUT ROMANTIC.

Little Man of 50 and a Big Woman of 55 Elope.

Jerome Zimmerman, aged 50, and Susan Parker, aged 55, eloped from Loganton, Clinton county, last Friday, boarding Pacific express at 4.30 a. m. They were arrested at Pittsburg on the arrival of the train in that city at 2 o'clock in the afternoon.

The Pittsburg *Gazette*, noting the arrest, says: "It is doubtful whether the prisoners were most surprised at their arrest or the detectives at their appearance. The man was small and round, the woman long and lean. Instead of a pretty and giddy young girl, she looked every day of her age, and a pair of steel bowed "specs" set on her rather sharp nose, did not qualify her for a latter day eloper.

"When informed they were under arrest the woman undertook to faint, but Detective Fitzgerald headed the attempt off with a glass of water. When she recovered Fitzgerald escorted the woman and Coulson the man to Central station. On the way down Liberty street they passed a fruit stand where some big horse chestnuts were roasting in a pan.

"Zimmerman has a wife and seven children. The oldest is 18 years of age. Mrs. Parker is the wife of a farmer neighbor, and has two children, the oldest being 22. Zimmerman says his wife is a "she-devil," and he'll rot in jail before he'll live with her again. Mrs. Parker says her husband is a "dirty brute," who drove her from her home, and she will likewise go through a process of mortification within the walls of the Clinton county jail before she'll return to his bed and board. Zimmerman had over $4,000 with him, and tickets for the couple to Atchison, Kansas. Both have friends living out there. Being unable to agree with their respective helpmates, they decided to go to the land of droughts and grasshoppers, where they could start life afresh. The telegram from Lock Haven charges Zimmerman with larceny. He denies this, and says it is just a case trumped up by his wife and family to get him home again."

Are you ever Annoyed

by a buzzing or roaring sound in your head? Have you difficulty in hearing distinctly? Are you troubled with a continual dropping of mucus, irritating the throat and causing you to cough? Is your breath unpleasantly affected and accompanied with bad taste? Is your hearing less acute? If so, you have catarrh and should at once procure a bottle of Ely's Cream Balm, the best known remedy. The Balm will give instant relief.

Resolutions on the Death of Christian Earnest of the United Evangelical Church Bloomsburg Pa.

WHEREAS, it has pleased Almighty God to enter our midst and remove from us one of His best workers.

WHEREAS, Bro. Earnest's character and life was such as to inspire us to a more faithful service in our Masters vineyard and he was always at his post of duty ready by an extending hand and a smiling countenance welcoming and encouraging others in the christian journey.

WHEREAS, realizing what is our loss is his eternal gain therefore be it

Resolved; that we will ever try to follow our dear brother's footsteps and in so doing follow our Master's and to be more faithful in the discharge of our duties to Him and His cause.

Resolved; that we sincerely sympathize with the bereaved family in their sad affliction and would recommend them to Him who can heal all wounds.

Resolved; as a Sunday School we have suffered an irreparable loss. As a teacher and instructor he was ever trying to impress Christ and Him crucified upon those he had in charge.

As a leader of the choir he was ever ready to select such pieces as would do the most good to the most people.

As a member of the Official Board he was willing to give his advice but avoiding prominence. As a Christian Endeavorer he was always trying to to impress on the young the importance of serving Christ always and at all times both by advice and example.

Resolved; that a copy of these resolutions be tendered to the bereaved family. Also a copy sent to the Town papers and the *Evangelical* for publication and spread upon the minutes of the different departments of our Church.

Undisputed Merit.

The great success of the Royal Baking Powder is due to the extreme care exercised by its manufacturers to make it entirely pure, uniform in quality, and of the highest leavening power. All the scientific knowledge, care and skill, attained by a twenty years' practical experience are contributed toward this end, and no pharmaceutical preparation can be dispensed with a greater accuracy, precision and exactness. Every article used is absolutely pure. A number of chemists are employed to test the strength of each ingredient, so that its exact power and effect in combination with its co ingredients are definitely known Nothing is trusted to chance, and no person is employed in the preparation of the materials used or the manufacture of the powder, who is not an expert in his particular branch of the business. As a consequence, the Royal Baking Powder is of the highest grade of excellence, always pure, wholesome and uniform in quality. The contents of each box are exactly like every other, and will retain their powers and produce the same and the highest leavening effect in any climate, at any time. The Government Chemists, after having analyzed all the principal brands in the market, in their reports placed the Royal Baking Powder at the head of the list for strength, purity and wholesomeness and thousands of tests all over the country have further demonstrated the fact that its qualities are, in every respect, unrivaled.

Thanksgiving Proclamation.

Washington, Nov. 4.—The customary Thanksgiving proclamation was issued by the President to-day as follows:

A PROCLAMATION.

By the President of the United States:

The constant goodness and forbearance of Almighty God which have been vouchsafed to the American people during the year which is just past, call for their sincere acknowledgement and devout gratitude.

To the end, therefore, that we may with thankful hearts unite in extolling the loving care of our Heavenly Father I, Grover Cleveland, President of the United States, do hereby appoint and set apart Thursday, the twenty-eighth day of the present month of November, as a day of thanksgiving and prayer, to be kept and observed by all of our people.

On that day let us forego our usual occupation, and in our accustomed places of worship join in rendering thanks to the giver of every good and perfect gift, for the bounteous returns that have rewarded our labors in the fields and in the busy marts of trade, for the peace and order that have prevailed throughout the land, for our protection from pestilence and dire calamity and for the other blessings that have been showered upon us from an open hand.

And with our thanksgiving, let us humbly beseech the Lord to so incline the hearts of the people unto Him that He will not leave us nor forsake us as a nation, but will continue to use his mercy and protecting care, guiding us in the path of national prosperity and happiness, endowing us with rectitude and virtue and keeping alive within us a patriotic love for the free institutions which have been given to us as our national heritage.

And let us on the day of thanksgiving especially remember the poor and needy and by deeds of charity let us show the sincerity of our gratitude.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be fixed.

GROVER CLEVELAND.

Done at the city of Washington this fourth day of November, in the year of our Lord 1895, and in the one hundred and twentieth year of the independence of the United States.

By the president:

Richard Olney, Secretary of State.

A Hundred Dollar Ride.

J. G. Bennett, Esq., of Danville, took a ride on Sunday a week that cost a cool hundred. Mr. Bennett is the great patent lawyer, and he was coming from Chicago to Danville. He arrived in Harrisburg long after News Express had left, so he hired a special train. It consisted of one car and an engine and contained beside the crew, one passenger and a trunk. It arrived in Sunbury at 3:10 and was met by a Sunbury Division special at the depot. Mr. Bennett changed cars and in a few minutes the special was speeding to Danville. He returned to Sunbury in time to take Accommodation at 8:22 p. m., to return to New York City. Mr. Bennett paid the Company $100 for the service rendered him.

The Mount Lebanon Shakers are offering a product under the name of Shaker Digestive Cordial which yields *immediate* relief. The very first dose proves beneficial in most cases; and it is owing to their unbounded confidence in it, that they have put 10 cent sample bottles on the market. These can be had through any druggist; and it will repay the afflicted to invest the trifling sum necessary to make a trial.

The Shaker Digestive Cordial relieves by resting the stomach and aiding the digestion of food.

We mentioned in the COLUMBIAN last week that Judge Ikeler was obliged to leave on Tuesday for Girardville, where he met the Board of City Trusts of the Girard Estate, the object of the meeting being the location of a summer home for the younger children of Girard College. Girard Manor, Schuylkill County, was selected as the place, and the construction of the buildings will be commenced next spring. It is four miles west of Lofty, along the Catawissa branch of the Philadelphia & Reading Railroad, and is a most desirable place for a summer home.

In the disposition of the Dunham-Sittser Judical contest a number of nice questions of the law were ruled upon by the Court with regard to the marking of ballots. One was that a ballot marked in the party circle with a straight perpendicular or a straight horizontal line is legal. Circles within circles were also declared legal. The Court decided that in every instance where a ballot fully set forth the wish of the voter it should be counted, except where dot marks were used. The Judges drew the line on those, of which there were several.

LOST LETTERS.

Many Misdirected Missives Get Into Postoffices.

Every day about 9,000 letters are received at the New York postoffice addressed incorrectly. As a result Postmaster Dayton will distribute cards telling people how to send mail matter. Here are some of the suggestions on the card:

Don't mail any letter until you are sure that it is completely and properly addressed. Don't place the address so that there will be no room for the postmark.

Don't, in the hurry of business, in addressing a letter, write the name of your own state upon it instead of that of the person addressed—a very common error.

Don't fail to make certain that your manner of writing the name of an office or state may not cause it to be mistaken for one similar in appearance. It is often better to write the name in full.

Don't fail, if you are in doubt as to the right name of the office for which your letter is intended, to consult the postal guide, which any postmaster will be pleased to show you.

Don't fail to give the street and house number of the person for whom mail matter is intended in addressing it to a city or large town.

Don't mail any letter until you are sure that it is properly stamped.

Don't fail to place the stamp on the upper right-hand corner.

"Don't write on the envelope, "In haste." "In care of the postmaster." etc. It does no good, and tends to confusion in the rapid handling of mail matter.

Don't fail to bear in mind that it is unlawful to inclose matter of a high class in one that is lower—e. g., merchandise in newspaper.

Don't mail any letter unless your address, with a request to return, is upon the face of the envelope, so that in case of non delivery it will be returned directly to you.

Don't fail to give your correspondents your full address, so that a new postman cannot fail to find you.

Don't fail to inform your postmaster of any change in your address.

Don't trust to the fact that you are an "old resident," well-known citizen etc., but have your letters addressed in full.

Don't fail if you intend to be away from home for any length of time to inform your postmaster what disposition shall be made of your mail.

Don't delay the delivery of any mail matter that you may take for another.

Don't fail to sign your letters in full, so that if they reach the dead letter office they may be promptly returned.

Don't when you fail to receive an expected letter, charge the postal service with the loss until you have learned from your correspondent of all the facts in regard to the mailing, contents, etc.—*New York Press.*

A Newsboy's Travels.

James Kelley, the newsboy who runs between Lock Haven and Harrisburg and who is better known as "Sawdust Jimmy," is credited with a traveling record equal to seventy times around the earth. He comes north on News express and goes back the same day, thus traveling 236 miles each day on the round trip. He works every day in the year, and thus gets over 87,140 miles per annum. He has been on the road in this business fully twenty years, on the same run, consequently he has the enormous mileage of 1,742,800 to his credit; or he could have circled the globe about seventy times by traveling round and round.

A Bad Horse Market.

According to the Chambersburg *Spirit*, Philadelphia is a bad horse market at present. One dealer from Franklin county took a car load of horses down last week and one of the horses that he paid $40 for and freight, sold for $30. Other dealers who were in the market did not fare any better than did Mr. Zullinger. He saw a fine pair of driving horses, well matched, five years old and sound all over, sold for $62, for the pair. A bay horse five years old, sound and fine appearing, guaranteed to go in less than three minutes, to be returned after a month's trial if not satisfactory, went for $75. Prices for heavy work horses were very little better. It is safe to say that no horses will be shipped to Philadelphia from this section for some time.

Pennsylvania added more largely to her population from 1870 to 1880 and from 1880 to 1890 than any other State in the Union. If she shall maintain this relative rate of growth for the twenty years from 1890 to 1910 New York will have to surrender her place as the first State in the Union.

The department of public instruction is preparing a revised edition of the school laws of Pennsylvania, which will contain all the laws pertaining to the public schools enacted by the legislature since the foundation of the system.

A second train, with through sleeping cars from New York, leaves Washington at 4:30 A. M., arriving at Atlanta 5:20 A. M. the next day.

Both trains leave from the Pennsylvania railroad station and land passengers in the Union Depot at Atlanta—as near the Exposition grounds as through passengers via any line are landed.

At Portsmouth and Norfolk, Va., the Seaboard Air Line has other connections equally as important as those at Washington, uamely: From New York and Philadelphia, the Cape Charles Route; from Baltimore, the Bay Line steamers; from Washington, the Norfolk and Washington steamers; from New York, the Old Dominion steamships and from Boston and Providence, the Merchants' and Miners' steamships. Close connection is made at the steamer sides with through trains and Pullman Drawing-Room, Buffet Sleeping Cars operated through from Portsmouth to Atlanta without change. Each of these routes takes the passenger via Old Point Comfort and through Hampton Roads.

EQUIPMENT.

These trains are composed of the handsomest Pullman Drawing Room, Buffet Sleeping Cars and Day Coaches. The 8:40 P. M. train ("The Atlanta Special") is vestibuled from end to end and is operated solid from Washington to Atlanta without change.

POINTS OF INTEREST ALONG THE LINE.

The route from Washington is through Fredericksburg, Richmond and Petersburg, Virginia, Weldon, Raleigh and Southern Pines, North Carolina, Chester, Clinton, and Abbeville, South Carolina, and Elberton and Athens to Atlanta, Georgia.

RATES.

Excursion tickets will be sold to Atlanta and return, via the Seaboard Air Line, as follows:

On Tuesdays and Thursdays, September 17th to December 24th, inclusive, at $14.00 from Washington and $12.60 from Portsmouth and Norfolk, limited to ten days from date of sale.

Daily, September 16th to December 15th, inclusive, at $19.25 from Washington and $17.35 from Portsmouth and Norfolk, limited to twenty days from date of sale; and at $26.25 from Washington and $23.65 from Portsmouth and Norfolk, good until January 7, 1896.

THE EXPOSITION

surpasses in some respects, any Exposition yet held in America. Here you find, side by side, exhibits from Florida and Alaska, California and Maine, the United States of America and the United States of Brazil, Mexico and Canada, and so on until nearly every civilized nation on the globe is represented. On the terraces are found, among many other attractions, Arab, Chinese and Mexican villages, showing just how those peoples have their "daily walk and conversation."

Ask for tickets via "THE SEABOARD AIR LINE."

Pullman Sleeping Car reservations will be made and further information furnished upon application to any Agent of the Seaboard Air Line, or to the undersigned.

IMPORTANT MATTERS.

Brought Before Council Monday Evening.—Petition for Sewer and Electric Lights.—Report of Committee on Highways Meets With Opposition.

Council Monday Evening was attended by all the members. The committee on Highways reported that they had secured the signature of all abutting property owners along Jefferson Street, to a release of damages with the exception of A. G. Briggs and the same report was made in regard to North Street. Mrs. Wyncoop through councilman Kester stated she intended laying a cement pavement along her property on Third and Centre Streets and requested Council to defer action in regard to compelling her to raise her pavement. It was also stated that such repairs had been made as would prevent water from running on the pavement. On motion her request was granted. In regard to the trouble between Deifenbach and Kashner in reference to a pig pen, Mr. Kester reported that the committee considered the matter of too trivial a character to occupy the time and attention of council. Inasmuch as it was stated that the Electric Light Company would not make a contract for less time than one year, upon motion of Lockard the matter was left in "statu quo."

Upon motion, the question of a crossing over West Street at Fifth, was refetred to the President and Town Solicitors with authority to act in the matter. The question of reducing the time of exoneration from taxes of new industries, brought forth considerable discussion, but no action was taken. Pres. Creasy, and several others were in favor of reducing the time to five years.

In the matter of the application of Mr. Cook for sewer on West Fourth Street the committee reported that owing to the length of it, it would be impossible for the town to go to the expense at the present time. C. M. Hess requested the extension of the West Third Street Sewer. It was referred to the proper committee. He was granted a building permit for a two story frame dwelling house on West Third Street. John L. Richardson reported that in the matter of excavating and filling Light Street road he had secured to the release of damages the signature of all the adjoining property owners excepting Dr. Gardner. The council said they could take no action until it had been signed by all of them. Tax Collector Bittenbender desired some arrangements made whereby parties who are unable to pay their taxes and manifested a disposition to work, could be employed on the streets. He also called attention to the law, stating that where parties neglected and refused to pay their dog tax the animal should be shot. W. H. Bellig desired council to finish the work on Leonard Street so that parties could lay their pavements. This brought forth considerable discussion, as the street is left in an unsafe condition. The Street committee stating that the Street Commissioner done the work to suit himself, and not according to their directions. The town Engineer was instructed to give the grade, and see that the Street Commissioner done the work in accordance with it. The question of removing the fence from Athletic Park was laid on the table.

The opening of Jefferson and North Street was the cause of considerable discussion. It was maintained by the Committee on Highways that inasmuch as the council had declared them public highways they had a right to go on, and open them. That it was necessary to attend to the matter at once, or lose the opportunity of getting earth for filling, and hence had no opportunity of reporting to the Council. That the work on Jefferson Street had been done by William Ferguson by the day, and they were positive it had been done better, and for a less sum than it could have been by the Street Commissioner. Mr. Lockard thought that the Committee on Highways was usurping the power of the Council, and if this sort of work was continued there was no need of having a Council. They also reported that Gross and Ohl would do the mason work on the North Street culvert for $1.00 per foot and C. P. Armstrong would furnish the stone for the same price, making the culvert cost completed $2.00 per foot. Upon motion C. P. Armstrong was awarded the contract for the stone at his bid, and Gross and Ohl the mason work at their bid. Said work to be done under supervision of Town Engineer and no money to be paid until it had been approved by him. Mr. Lockard voted No. Property owners on Leonard Street were notified to lay pavement within 30 days from notice. William Ferguson was awarded the contract for the Jefferson Street culvert at $2.00 per foot completed, under the same restrictions as that on North Street. A petition was received from W. B. Taylor representing that the alley along his property on Iron Street was too high, and requested council to change the grade so that it could be used. Referred to the Town Solicitor to prepare the necessary papers. A petition was also received for an electric light at the inter section of Ninth and Catharine, and one at Third and Catharine Streets. Referred to the proper committee. Mr. Gorrey and the President said they had been informed that Housel had been using the hose at the sewer, and had put them away wet, and the consequence was they had rotted at places, and also that they had been put on reel wrong end first, which would cause much delay in case of fire. The matter was referred to the Committee on Fire who were instructed to notify Mr. Housel that in the future if he uses the hose he must put them back in a proper condition.

Doctors' Mistakes.

TREATING THE WRONG DISEASE.

How large bills are run up without benefit to the sufferer.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from nervous disease, another from liver or kidney disease, another with pain here and there, and in this way they all present alike to themselves and their easy-going, indifferent, or over-busy doctors, separate and distinct diseases, for which they prescribe their pills and potions, assuming them to be such, when, in reality, they are all only *symptoms* caused by some womb disease. The physician ignorant of the *cause* of suffering, encourages his practice until large bills are made. The suffering patient gets no better, but probably worse, by reason of the delay, wrong treatment and consequent complications. A proper medicine, like Dr. Pierce's Favorite Prescription, *directed to the cause* would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It *cures* all derangements, irregularities and weaknesses of the womanly organs. It is purely vegetable in its composition and perfectly harmless in its effects *in any condition of the system.* For morning sickness, or nausea, due to pregnancy, weak stomach, and kindred symptoms, its use, will prove very beneficial. It also makes childbirth easy by preparing the system for parturition, thus assisting Nature and shortening "labor." The period of confinement is also greatly shortened, the mother strengthened and built up, and an abundant secretion of nourishment for the child promoted. Sold by all dealers.

SUDDEN DEATH OF MRS. JOHN BARNETT.

A message from Philadelphia yesterday morning announced the death of Mrs. Bertha Barnett, wife of John Barnett, who left here two weeks ago to undergo an operation at the Howard hospital. Her death occurred at nine o'clock Wednesday night, on the same day of the operation. Mr. Barnett at once left for Philadelphia and will return with the body to-day when the time of the funeral will be announced. Mrs. Barnett was 31 years old and leaves three small children in addition to her husband. The announcement of her death came like a clap of thunder from a clear sky. Her friends had hoped that she would successfully stand the operation and return completely cured.—*Mountain Echo* Nov. 8th.

The above named lady was well-known, and had many friends in this place who were shocked when they learned of her sudden death. She was a niece of the late Mrs. Delilah Barton, and attended her funeral which occurred here a short time since.

A production of unusual magnitude will be given at the Opera House next Wednesday evening, Nov. 20. Lincoln J. Carter's superb scenic melodrama "The Fast Mail." As its name indicates, it deals largely with the railroad in its incidents, but it presents an abundance of effects that are daring in their magnitude and admirable in their execution. The steamboat is said to be a wonder of clever conception and masterly mechanical work, and the railroad scene with its trains going at a terrific rate of speed, makes the stage seem like a piece of reality. The Niagara Falls scene is wonderfully beautiful, and it may be safely said is more elaborate than anything of the kind ever before attempted in this city. There are a multitude of minor effects that contribute to make the performance a revelation of realism. The whistles, bells and splashing are heard as the boat leaves the wharf. The sounds that tell us of an approaching train herald the approach of the freight and the fast mail train—the latter rushing by with people gazing from the window at the heroine who has just saved her lover's life by fastening a letter to the mail ponch. The roaring of Niagara Falls is heard, and the mist that rises from it is shown vividly. The play is under the personal direction of L. J. Carter, the author. The cast is said to be a capable one. The play is startling at times in the intensity of its climaxes, and these, when presented with all the effects of the intricate stage settings, bring the interest to a degree that is rarely attained even in the melodrama. A large number of people are employed in the production, which is in many particulars plainly the result of care and skill combined.

Mrs. Richard Kitchen of Greenwood township, this county, was in town last Saturday delivering butter to her customers. The Judges of several Fairs have decided that she is one of the best butter makers in this section of the county. She has received the premium at six New York State Fairs, and during the last few years, she has received a premium at the Pennsylvania State Fair and four County Fairs. This year she received the first premium at the Bloomsburg Fair. This speaks well for a Columbia County lady. If all butter makers were like Mrs. Kitchen, more butter would be used, and it would command a better price.

BROKE HER LIMB.

Mrs. Dr J. B. McKelvy met with an accident Tuesday morning which will confine her to the house for a long time. She had gone on the opposite side of the street to call upon Mrs. M. E. Creasy, and when inside the yard, she slipped on an icy board and fell, breaking both bones in her right leg below the knee. She was carried to her home, and the fracture reduced. She has many friends who sympathize with her in this misfortune.

MARKET REPORT.

Prices at the curb market last Saturday were as follows :

Butter, 25c per lb., eggs, 22c per doz., chickens, 10c per lb., potatoes, 40c per bus., turnips, 20c pk, cabbage, 4 to 5c per head, celery, 5c per stalk, beef-roast 10c lb, steak 12½c lb., boiling, 7 to 8c lb., pork steak, 12c lb., tenderloin 14c lb, spare ribs, 10c lb., sausage 10c lb., smoked sausage, 14c lb., scrapple 5c lb., pudding 8c lb.

A BUSY MAN.

William B. Ferguson is one of the busiest men in town. He has finished the contract for the excavation of the cellar of the new Methodist church, and now has a lot of men and teams grading the lot of A. Z. Schoch at the corner of Fourth and West Street. A cut of eight feet has been made on portions of the lot and the earth scraped to the low portions of it. When the work is completed, Mr. Schoch will have some of the finest building lots in the town. In addition to this, he has the contract for the grading of Jefferson Street.

THAT FISH STORY.

The *Daily* of Friday Nov. 8th, charges the *Shickshinny Democrat*," with having published a fish story, headed "Black Bill's Twin" which they claim was "originally" published in the *Daily*. Readers of the COLUMBIAN will remember seeing the same story "ver batim" in the COLUMBIAN in its issue of October 25th.

We notice by an exchange that Geo. W. Jones & Co., of Orangeville, manufacturers of insoles, heels, etc, for ladies' shoes, have proposed to the Watsontown Board of Trade, that for the donation of sufficient ground for their factory, and the loan of $5,000, they will remove to Watsontown, and employ from 30 to 60 hands the year round. Lack of proper railroad facilities and difficulty in securing sufficient help is the cause of the desire for a new location. What is the matter with Bloomsburg?

Information reached this place Monday morning announcing that Dr. R. B. Fruit of Hazleton had died at his residence Sunday morning. He was aged sixty-eight years and leaves to survive him two daughters and a son. He was one of the most prominent men of the place, holding the position of President of the Board of trade.

J. M. Gidding & Co's., of Bloom, great November sale is now at its height, people from every nook and corner of the valley are crowding their store daily, and that their extraordinary values are being appreciated, is shown by the liberal patronage of careful and economical buyers make it a point to attend this November sale at Giddings.

A total eclipse of the moon will occur on November 17. Totality will begin at 7:55 and will occupy more and more of the surface of the moon until 11:06, when the eclipse will become total.

The above article appeared in the *Bloomsburg Daily* last Wednesday. Don't worry. It will not materialize. There will be no moon to be eclipsed, as we don't have new moon until the 16th at 12:11 P. M.

The High School and second team of the Normal had a tussel with the "pig skin" at Athletic Park last Saturday, which broke up in a row. The first half ended with the score 6—0 in favor of High School. Each party charges the other with unfairness.
